Spanish: fluent

PROFILE

Software engineer with hands-on-experience creating web and mobile applications. Ability to adapt in self-starting and collaborative environments with the focus of delivering high quality results. Ability to learn from others and engage in meaningful dialogue.

WORK EXPERIENCE

Northern York County EMA – Web Developer Intern

Dillsburg, PA | 01/2023 – 05/2023 | nemapa.org

- Led a team of 3 volunteers in the design and development process of the website and increased team productivity by 63%
- Developed user-interfaces using modern JavaScript frameworks, HTML, and CSS, which increased user satisfaction by 28%
- Developed documentation to teach new volunteers on how to use agency software and equipment.
- Focused on creating a responsive design and a good user experience using web development best practices.
- Led weekly stand-ups to review website progress, assign new tasks, and ask questions.

PROJECTS

Multicultural Council – Project Manager

Messiah University | 04/2021 – 04/2022 | [Demo](#)

- Led a team of 3 students in the design and development process of a mobile application using modern JavaScript frameworks.
- Led twelve, 2-week sprints using agile methodologies, including SCRUM.
- Learned key development concepts such as deployment, testing, and maintaining upon release.
- Created a custom REST API using Node and Express and storing our data in MongoDB.
